SANI-SOFT

EPA Reg. #1839-108-38398

DESCRIPTION

SANI-SOFT is a concentrated fabric softener/sanitizer. It contains quaternaries specifically developed to provide versatility in broad range control as a sanitizer, disinfectant and fungicide, as well as functioning as an effective fabric softener.

PERFORMANCE

SANI-SOFT is infinitely soluble in all proportions with water, exhibiting no corrosivity. Effective against staphylococcus aureus, salmonella choleresis, pseudomonas aeruginosa, herpes simplex, influenza, and vaccinia virus. (See label for full bactericidal capabilities.)

ADVANTAGES

1. Broad range bactericidal and residual zone of inhibition properties.
2. Compatible with other cationics and nonionics.
3. Provides all the benefits of softening in the wash cycle. i.e.
 - Static Electricity Control
 - Reduced Wrinkling
 - Enhanced Drying
 - Improved Garment Hand

DIRECTIONS

Use direct as received at the rate of 3-4 ounces per 100 pounds of laundry in the rinse cycle.
