SAFE-T-SUDS HIGH EFFICIENCY LAUNDRY DETERGENT

DESCRIPTION

SAFE-T-SUDS is a concentrated, High Efficiency, environmentally friendly liquid laundry detergent containing a biodegradable surfactant, and a safe-to-color, oxygen based bleach/brightener, safe for use on garments of all colors and materials of construction. Product is packaged with *Saf-T-Flo** inserts, preventing hand pouring, and product dispensing/dosage issues.

APPLICATION

SAFE-T-SUDS was specifically created for home-style, top loader applications where a *High Efficiency* formulation is required for new model *HE* rated washing machines. The product is not only safe on mixed-color classifications, but also beneficial sanitizing capability on personal garments being processed in lower temperature cycles to prevent color loss and shrinkage.

ADVANTAGES

- Product can be used as a One-Shot laundry detergent additive
- Will remove oily, tough soils and stains
- Safe bleaching activity will brighten and de-stain linens without ill effect on colors tm
- *Saf-T-Flo* inserts prevent hand pouring, or spillage/contamination

RECOMMENDED USAGE

Light Soil: 2-3 ounces per load

Medium Soil: 3-4 ounces per load

Heavy Soil: 4-5 ounces per load

Contact your technical representative for specific use and injection parameters.

PACKAGING

SAFE-T-SUDS is packaged in convenient one gallon containers, packed 4 to a case with Safe-T-Flow* inserts. A Pariser provided Docking Station is required to “mate” with the insert system, for controlled, proportioned product feeding.
