SUDS BOOSTER

DESCRIPTION

SUDS BOOSTER is a laundry washing adjunct product, designed to condition all water sources, thereby maximizing the performance of detergents in hard water applications.

APPLICATION

SUDS BOOSTER has application where moderate to high hardness source water mandates a lateral product approach to water conditioning. **SUDS BOOSTER** can be used as a routine maintenance adjunct, or as a corrective measure to treat greyed-down, dingy linens resulting from redeposition and soap stearate buildup.

BENEFITS

- Reduces detergent consumption.
- Enhances bleaching.
- Better soil removal.
- Reduces water and soil hardness.
- Prevents redeposition and grey-down.
- Prevents soap scum machine deposits.

USAGE DIRECTIONS

Add 2 - 4 ounces per 100 pounds of rated washer capacity to the break operation and/or, 1- 2 ounces per 100 pounds to the bleach operation
